

$145 \times 5 = ?$

Draw the amount of groups you want to use

Add how many would be in each group

$$145 + 145 + 145 + 145 + 145 = ?$$

Solve use repeated addition

Use any strategy that works for you

$$100 + 100 + 100 + 100 + 100 = 500$$

$$40 + 40 + 40 + 40 + 40 = 200$$

$$5 + 5 + 5 + 5 + 5 = 25$$
